Is my site required to sample and report in line with the Materials Recovery Code?

Does your site fit the legal definition of a Materials Recovery Facility? ("A facility where dry recyclable waste is treated in order to separate that waste into a dry waste stream or streams")

→ No → Not required to comply with the code

↓ Yes

Does your site hold a WML or PPC permit?

→ No → Not required to comply with the code

↓ Yes

Does your licence or permit have a condition requiring compliance with the Materials Recovery Code?

→ No → Not required to comply with the code

↓ Yes

Does your site - or do you expect it to - receive more than 1000 tonnes annually of dry recyclable waste (as defined under S.75(7A) of the EPA 1990)?

→ No → Not required to comply with the code

↓ Yes

You are required to notify SEPA that you are within scope of the code and begin sampling, recording and reporting on your waste inputs and outputs.
